

Sprint 9

BF-247

Updates:

Changed the color values for the behavior, attendance, and academics tables. Before this sprint, the values were “Green”, “Yellow”, “Red”, and “Null”, now they are “#558c3b”, “#f2ca52”, “f25d50” which are the hex code values for the colors green, yellow and red.

Below are images of example of the documents in each cluster:

The screenshot displays the MongoDB Compass interface for the 'PortedEd.Behavior' collection. The top navigation bar includes 'Documents', 'Aggregations', 'Schema', 'Indexes', and 'Validation'. The 'Documents' tab is active, showing a list of documents. The interface includes a search bar with a filter icon, a query input field, and buttons for 'Explain', 'Reset', 'Find', and 'Options'. Below the search bar, there are buttons for 'ADD DATA' and 'EXPORT DATA'. The document list shows five documents, each with a unique '_id' and fields for 'studentID', 'class_id', 'color', 'date', and 'alertID'. The 'color' field values are '#f2ca52', '#f25d50', '#f25d50', '#558c3b', and '#f2ca52' respectively.
